PROLOGUE

LAND ACKNOWLEDGEMENT

The parties acknowledge that we operate in Manitoba and are located on the traditional territory of the Anishinaabee, Anishiniwak, Ininiwak, Nehethowuk, Dakota, Dene, and Métis people. Our facility in Manitoba is located on Treaty 1 Territory and the homeland of the Métis Nation.

We acknowledge that Winnipeg's water is sourced from Shoal Lake 40 First Nation. We respect the Treaties made on these territories. We dedicate ourselves to move forward with Indigenous communities in a spirit of reconciliation and collaboration to make Manitoba an inclusive and accessible place for everyone who lives here. We are mindful of broken covenants and of the need for healing and reconciliation with all our relations. We acknowledge that each community on the lands has a unique historical, cultural, and spiritual connection to the land and we affirm our collective duty to work to understand them. We express our gratitude to the ancestors who came before, those who are here now and their descendants who are the future. We provide our commitment to pursuing a path towards decolonization and are in support of self-determination.

We will continue to be an active partner and support crucial work on the issues of missing and murdered Indigenous women, girls, and two-spirited, residential schools and environmental degradation. We acknowledge the need for investments in Indigenous education, health care, social services, water infrastructure and housing and are committed to helping build stronger communities where we operate.

ARTICLE 1
RECOGNITION

The Company recognizes the Union as the sole and exclusive bargaining agent with respect to wages, hours of work and other working conditions, and this Agreement will pertain only to its employees in the Bargaining Unit as defined in the Certificate dated April 10, 2014 by the Manitoba Labour Relations Board.

ARTICLE 2

RIGHTS OF MANAGEMENT

The management of the Company and the direction of the work force is vested exclusively in the Company subject to the terms of this agreement. All matters not specifically and expressly covered or treated by the language of this Agreement may be administered for its duration by the Company in accordance with such policy or procedure as the Company from time to time may determine. The Company has the right to sub-contract work and designate the work to be performed by the Company and the places where it is to be performed.

ARTICLE 3

UNION AND COMPANY RELATIONS

Section 3.1 Union Activity During Working Time

The Union agrees that no employees shall engage in any Union activity during working time except as expressly provided in this Agreement.

Section 3.2 Strikes and Lockouts

The Union agrees that during the term of this Agreement, and regardless of whether an unfair labour practice is alleged, there will be no strike, suspension of work, slowdown, sitdown or walkout and the Union will not directly or indirectly authorize, encourage or approve any refusal on the part of the employee to proceed to the location of normal work assignment. Any employee who violates this clause shall be subject to discipline. The Company agrees that during the term of this Agreement there will be no lockout of employees covered by this Agreement.

Section 3.3 National Representatives - Access to Plant

An authorized National Representative and/or full-time Local Representative of the Union shall be permitted on the Company's premises for the purpose of investigating grievances or complaints that have arisen, and for the purpose of attending meetings pertaining thereto.

Such National Representative and/or Local Representative, shall, before each entry, request permission from a designated representative of Management who shall permit them to enter the Company's premises, provided, however, that the Company may send a representative to accompany them, but the Union's Representative, in investigating any grievance and complaint, shall be entitled to interview privately any employee covered hereby. It is further provided that such permission to enter the Company's premises shall be exercised reasonably and shall not unreasonably interfere with the conduct of the Company's operations, and shall be subject to all rules and regulations normally applicable to plant visitors.

Section 3.4 Shop Committee and Bargaining Committee

- 3.4(a) The Union shall be represented by a Shop Committee, one of whom shall be Chairperson. The Company recognizes that the Shop Committee and the Negotiations Committee may be one body. Committee member(s) shall represent the employees in a manner and for the purpose set forth in this Agreement. The Union may designate one employee on the active payroll for each one hundred (100) bargaining unit employees or fraction thereof, as a member of the Shop Committee not to exceed in any case a total of six (6) members of the Shop Committee in addition to the Chairperson. In the event that the Negotiations Committee and the Shop Committee are not one body, the Negotiations Committee representation will be no larger than six (6) members in addition to the Chairperson.

Members of the Shop Committee (except for two), the President and the Financial Secretary of the Local shall work on the day shift. The Shop Committee will ensure that one (1) member will work on the evening shift and one (1) member will work on the midnight shift as members of the Shop Committee. In the event that the number of active bargaining unit employees on any shift drops below 25, the designated Shop Committee member for that shift will be reassigned to support another shift, if available.

A written list of Shop Committee Persons and alternates, if any, and the area of the plant which each member of the Shop Committee shall represent for the purpose of handling grievances in accordance with the provisions of Article 11 shall be furnished by the Union to the Company immediately after their designation. The Union shall notify the Company in writing of any change in the membership of the Union Committee or their alternates or their area of representation. The Company will recognize any change two working days following the day the Company receives written notification of the change.

- 3.4(b) The Chairperson and the Shop Committee shall be on a full time basis for the purpose of administering the Agreement. The Chairperson shall be allowed free access to and from the Company's operations in the performance of duties. The Chairperson or Shop Committee representative shall first notify the Area Manager or designate before preceding into the area. The Chairperson will be provided with an office and office facilities including desk, chair, telephone and filing cabinet.
- 3.4(c) The Chairperson of the Shop Committee shall receive the rate of pay equal to the highest rate of pay in their job classification and will be paid the equivalent of forty (40) hours per week at straight time and shall be given the opportunity to work overtime in their applicable overtime group in their classification.
- 3.4(d) All full time Union representatives, including; chairperson, shop committee, and Health and Safety rep will remain in their current classification while acting for the Union. They will only be eligible for job promotions or reclassifications upon relinquishing their position or upon expiration of their elected term. This does not prevent the above named positions from taking off-hours training opportunities.
- 3.4 (e) When there are no full time Union Representatives on site, and the full-time Union Representative is on scheduled Union Business (ie. Code 98), the Union will ensure there is coverage on any affected shift(s) by assigning one (1) Alternate per shift on a full time basis to be paid for by the Company. If the applicable Union Representative's absence is for any reason other than Union Business, the Union will assign an Alternate on an as-needed basis to address time-sensitive concerns as they arise throughout the course of their shift. In these circumstances, Alternates will be required to receive their Manager's permission before leaving their work area and will be coded as "Union Business" for the time they are attending to these concerns.

Section 3.5 Shop Committee Person to Investigate Complaints or Claim of Grievance

Each Shop Committee Person shall notify and obtain permission for the purpose of investigating complaints or claims of grievance on the part of employees or the Union or

contacting the Local Representative in regard to such claim or grievance. Such permission shall be granted except where there is a substantial reason for delaying the contact or the investigation due to the safety conditions or the fact that a critical operation is in process. The supervisor may be present during any discussion relating to any complaint or grievance. However, upon the request of an employee or the Committee Person, the supervisor shall authorize the Committee Person to participate in a private discussion with an employee or Local Representative, relating to a complaint or grievance. Discussions of the type described in this Section 3.5 shall be conducted without requiring the employee or the Committee Person to clock out provided the discussion does not exceed the time that the supervisor considers reasonable under the circumstances.

Section 3.6 Departure from Work for Union Business

Officers of Local 2169, Unifor and members of the Shop Committee may be excused from work and their time coded as Union business if the request is made at least 24 hours in advance by the President or designate or Plant Chairperson of the Local Union to the Human Resources Site Leader or their designee. Such absences shall be granted. Time spent attending grievance meetings by Shop Committee members is not required to be coded as Union Business.

Employees who are not officers of Local 2169, Unifor or members of the Shop Committee may be excused from work and their time coded as Union Business, if the request is made in writing, by the President or designate of the Local Union to the employee's Manager. Such requests must be made within three (3) working days of the employee becoming aware of the Union Business. Should the employee become aware less than three (3) working days prior, such requests must be made immediately. Such absences shall be granted by the Company if operationally feasible.

Section 3.7 Surplus of Members of Shop Committee

An employee while serving as a member of the Shop Committee, in accordance with the provisions of Section 3.4, shall not be surplusd, transferred or loaned from their job classification, or the area they are assigned to represent as long as other employees remain in their job classification and in the area and on the shift for which they are designated to be the Union Representative. If the employee is not eligible to remain in their job classification, they will be reclassified and assigned work they are qualified to perform.

Section 3.8 Union Elections

Election of Union officers and members of the Shop Committee may be held on Company premises but not during Company paid time. The President of the Local, the Local Union Election Committee and the Human Resources Site Leader shall meet and mutually agree to the location of the polling stations and procedures prior to any such elections.

Section 3.9 Communication Boards

The Company agrees to the installation of enclosed and locked bulletin boards and up to two (2) audio visual boards for the use of the Union within areas agreed to by the Company and the Union for the purposes of notifying employees of matters pertaining to Union business. Only matters signed by the President of the Local or their designate and approved by the

Company may be posted on the Union boards. The Union will cover the associated costs of purchase and installation of additional audio visual boards.

Section 3.10 Bargaining Unit Employee Orientation

The Union will be provided a maximum of forty-five minutes during the normal Company new employee orientation to present information concerning Union membership, Union national and local organization and rights and responsibilities under the Collective Agreement. The presentation contents, format, designated representative who will make presentation and any need for visual aid equipment will be discussed between the parties prior to implementation.

Where courier is used, the notice must be signed as received or a registered notice for pickup shall be left at the employee's last known address. If their seniority does not permit the provisions outlined in Section 13.4(a) will be applicable.

- 4.4(a)(5) Employees may also be returned from salaried positions outside the bargaining unit to the job classification in the bargaining unit held immediately prior to their transfer out of the bargaining unit provided their bargaining unit seniority permits. If the employee recovers from the condition causing the disability within this eighteen (18) month period, they will be returned to their previously held classification upon such recovery. The medical assignment will become a permanent reassignment after eighteen (18) months with the appropriate rate reduction. The Company will maintain records of such medical assignments and will provide the information to the Union upon request. Thirty (30) days prior to the eighteen (18) month period expiring, the Company and the Union will meet to discuss the permanent reassignment.

Any employee who is summoned by the Crown to serve on a jury or to act as a witness for the Crown or is summoned to act as witness in a court of law, subject to the following limitations, shall be paid at their current straight time base rate, including shift differential, for each such regular work day or portion thereof. Witness fees or other fees will not be deducted from such pay.

The Company will continue to provide safe and effective equipment (except eye glasses ground and fitted to individual requirements and safety shoes) for fire and accident prevention. No set of safety regulations, however, can comprehensively cover all possible unsafe working practices. Therefore, the Union and the Company will undertake to promote in every practical way the realization of the responsibility of the individual employee with regard to preventing accidents to them self or other employees.

The Company and Union are committed to the health and safety of all employees. To that end, the parties agree to the principles of continuous improvement in the area of health and safety programs and to work on resolving health and safety issues.

The Chairperson shall be allowed free access to and from the Company's operations in the performance of their duties. The employee shall first notify the Area Manager or their designate before preceding into the area. The Union Co-Chairperson shall receive the rate of pay they were paid prior to being chosen for the position and receive raises according to the Collective Agreement. The Union Co-Chairperson shall be paid the equivalent of forty (40) hours per week at straight time and shall be given the opportunity to work overtime in their applicable overtime group in their classification.

9. The Company will provide the Joint Safety Committee a special phone equipped for communicating with deaf employees (TTY).

Section 10.4 General

- 10.4(a) The Company will provide to employees who are exposed to potentially harmful agents or toxic materials, at no cost to them, those medical services, physical examinations and other appropriate tests including audiometric and lung function examinations at a frequency and extent necessary to determine whether the health of such employee is being adversely affected. The Company shall insure that the above mentioned medical services for each employee are conducted or received during regular working hours. If services are unavailable during the regular working hours of an employee, the

Company will pay two hours at regular straight time hourly rates including shift premium, if applicable, to each employee receiving those medical services off shift.

- 10.4(b) No employee will be disciplined in the event they have complied with the Workplace Safety and Health Act as it is now written or hereafter amended.

- 10.4(f) In addition to the Level 1 and Level 2 Safety Training received by all employees (between 13 and 20 hours in duration), the Company will hold regular monthly crew safety meetings to present and discuss timely, pertinent health and safety issues identified by management and the Joint Safety Committee. Joint Safety Committee members will also receive Level 1 and Level 2 Health and Safety, WHMIS and Ergonomics training during the term of this Agreement.
- 10.4(g) The Joint Safety Committee Co-Chairpersons shall both be entitled to attend departmental safety meetings by arranging their attendance with the department Manager in advance and meeting schedules will be made available to them prior to the meetings.

During the time period the pregnant employee is employed in a new classification, they will not attain vested seniority in that classification, but will continue to accrue seniority.

ARTICLE 11

GRIEVANCE PROCEDURE

Section 11.1 Employee Complaints and Grievance

- 11.1(a) The parties desire that individual complaints and grievances shall be settled whenever possible with supervision in the area the complaint or grievance originates.
- 11.1(b) Only matters dealing with the interpretation or application of terms of this Agreement shall be subject to the grievance procedure. In addition, any non-probationary employee shall have the right to appeal their discharge, layoff, disciplinary suspension or unsuccessful application to a job posting by filing a written grievance in Step 2 of the grievance procedure within five (5) working days of the Company's action.
- 11.1(c) It is mutually agreed that probationary employees will have the right to have their case heard by the Human Resources Site Leader or their designee with the Committee Person present, with the understanding that the decision of the Human Resources Site Leader or their designee is final and not subject to grievance or arbitration.

Section 11.2 Method of Handling Complaints and Grievances

- 11.2(a) All complaints shall be presented within four (4) working days from the date the employee could reasonably have known of the act or omission on which the complaint is based. The term working days shall exclude Saturdays, Sundays, Holidays and vacation as defined herein.
- 11.2(b) All time limits spelled out in the Article may be extended by mutual agreement providing the request is made in writing.

STEP 1

Individual complaints which arise under this Agreement may be discussed by the complaining employee with their immediate supervisor either with or without his Committee Person being present. If the Committee Person is present and considers the complaint to be valid, they will attempt to effect a settlement of the complaint with the employee's supervisor.

The procedures outlined in Step 1 above as well as in the subsequent steps of the grievance procedure shall apply equally to a complaint or grievance lodged by a group of employees. The supervisor shall give their reply within two (2) working days from the time the complaint is presented to him/her.

STEP 2

If the reply in Step 1 is not satisfactory the Committee Person may reduce the complaint to writing on a form supplied by the Company within five (5) working days from the time the Supervisor has given his/her answer. The grievance will contain a clear statement of the

facts upon which the grievance is based, the Section or Sections of the Agreement alleged to have been violated and the remedy sought. The grievance will be submitted to the appropriate Human Resources Representative.

The Human Resources Representative, the Committee Person who filed the written grievance and the Chairperson, shall confer within ten (10) working days after submission of the grievance to this step of the grievance procedure. Such meetings will normally be held once a week on Thursday morning.

The Human Resources Site Leader or their designate(s) shall render a decision in writing within five (5) working days of such meeting.

As changes are made, a list of appropriate Human Resources Representatives will be provided to the Union.

POLICY GRIEVANCE

Any grievance the Union may have against the Company shall be submitted in Step 2 in the form of a Policy Grievance. Such grievance must be submitted in writing within ten (10) working days from the date the Union could reasonably have become aware of such occurrence. The written grievance must state the facts upon which the grievance is based, the Section or Sections of the Agreement alleged to have been violated and the remedy sought.

STEP 3

Should the decision rendered by the Company in Step 2 be unacceptable to the Union, the Union may appeal the grievance to arbitration within ten (10) working days from the date of the Company's decision. Such appeal shall be in writing and mailed by registered mail to the Company.

DISPUTE RESOLUTION PROCESS

Boeing Canada Winnipeg (the Company) and Unifor Local 2169 (the Union) agree that a dispute resolution system that provides for a timely resolve to grievances, and with reduced costs, is beneficial to both parties and to the employees of Boeing Canada Winnipeg (BCW). To that end, the parties have agreed to the creation of the Dispute Resolution Process (DRP) to assist in resolving grievances that have not been resolved through the established grievance process. The Union will maintain its right to proceed to the arbitration process as outlined in Article 11 of the Collective Agreement instead of utilizing this process for any grievance(s) that have not been scheduled or heard through this process.

Hearings

1. Hearings will be conducted twice a year, the "Spring Session" and the "Fall Session". Meetings will be planned for April and October but are subject to a new date dependent on Arbitrator availability or a scheduling conflict identified by one of the parties. At no time will the rescheduled date go beyond the next scheduled session. The parties will select a location to have the selected hearings and all costs will be borne equally 50/50.

2. Hearings will be scheduled for one day with six (6) cases to be heard each day. Upon mutual agreement, this number may be decreased.
3. The Company and Union will mutually agree to select grievances to proceed through the Dispute Resolution Process. Both parties strive to ensure unresolved grievances are addressed in an expedient manner. If a party believes the DRP is not the proper venue, they will make good faith efforts to have the grievance heard in what they believe to be the proper venue.
4. The Company and Union will mutually agree on at least 3 arbitrators. Each arbitrator will be assigned to one session per 18 month term, unless their schedule does not permit. The Arbitrator shall not have jurisdiction to arbitrate away, in whole or in part, any provisions of the collective agreement.

The decision of the Arbitrator shall be final and binding on both parties and their expense shall be borne in equal share by the Company and the Union.

5. In the event that the parties encounter difficulties in implementing the decision(s) of the Arbitrator, the Company and the Union agree that the Arbitrator will remain seized of each of the cases presented to them for arbitration.
6. All costs associated with the Arbitrator will be shared 50/50 by the Company and the Union.
7. Arbitrators will be initially appointed for an 18 month term. Following the 18 month period the parties will determine if the arbitrator is to be renewed for a three year term.
8. In order to familiarize an Arbitrator with the plant, a tour may be organized. The Arbitrator will be escorted on this tour by members of the Union and the Company. There will be no more than two Union representatives and no more than two Company representatives on each tour. The tour is intended to provide an introduction to the facility and neither party will speak to past cases or implied agreements between the Company and the Union to the Arbitrator unless it is in response to a question asked by the Arbitrator.
9. Both parties agree that legal counsel will not be allowed to attend or present at DRP hearings. Presentations for each case will be limited to the following:

The Union

- National Representative
- Plant Chairperson
- Local President
- Zone Representative
- Grievor(s)

The Company

- Human Resource Manager
- Human Resource Representative
- Area Manager or delegate

10. Participation at the DRP hearing is mandatory for both the grievor and the area Manager/delegate. In the event of a group grievance, the Union may choose to have employees attend on behalf of the group.
11. Bargaining unit employees attending the DRP will be coded as “Code 98 – Union Business” and will have their time paid for by the Union. The company will grant shift changes as necessary for employees on evening or midnight shift to attend the hearing. If the grievor is successful regarding their grievance the company will reimburse the Union for the wages of that employee(s). A successful grievance will be defined as one where the employee is provided full restitution.
12. Prior to the hearing, the Company and Union will prepare an agreed upon Statement of Facts and Information (SOFI).
 - a. For any disciplinary grievance the SOFI will contain at minimum:
 - Employee Start Date
 - Employee Work Area
 - Employee Shift
 - Discipline letter
 - Grievance form
 - Additional facts not in dispute
 - b. For any contract interpretation grievance:
 - The article of the CBA believed to be violated
 - Grievance Form
 - Additional facts not in dispute
13. Normally, each grievance should take no more than one hour. The average time breakdown is intended to be:
 - 20 minute Company Presentation
 - 20 minute Union Presentation
 - 20 minutes for rebuttal and questions from the Arbitrator
14. The grievances will be presented to the Arbitrator in date order: i.e.: from the oldest to the most recent.
15. The parties will ensure that all documentation that is to be relied upon at the hearing will be provided in triplicate:
 - For the Arbitrator
 - For the Company
 - For the Union
16. Following the hearing, the arbitrator will strive to provide a response to both parties within thirty (30) calendar days of the hearing. Responses will be provided by e-mail to the Manager, Human Resources and the Union Plant Chairperson.

17. Arbitration decisions stemming from the DRP can be submitted at future hearings to establish precedence.
18. All grievances filed to the DRP require meaningful discussion at a Step 2 grievance hearing prior to being submitted for review by an arbitrator at the DRP. Exceptions will only be made under the following circumstances:
 - The termination of an employee within four months of the DRP hearing where the facts are not in dispute, and both parties agree to proceeding through this process, otherwise the Union may refer the matter to Arbitration as outlined in Article 11.
 - A grievance filed by the Union that creates an ongoing financial liability to the Company;
 - The Company and Union require a resolution on an upcoming issue that both parties agree is better served to resolve through the DRP.
19. Should there be any issues related to the interpretation or application of this document, the parties agree to meet and discuss. If the parties cannot resolve the issue(s) in question, they agree to have the matter heard and resolved by the arbitrator at the next DRP hearing or sooner if possible.

Evidence

20. The Union and Company may provide evidence to support their case. Any evidence submitted requires a copy for the Arbitrator and other party.
21. In an effort to resolve grievances prior to the hearing, it is the responsibility of each party to provide their own evidence. Each party will provide all relevant information, that the other party may not have access to, that gave rise to the grievance for the other party's consideration.
22. All evidence relied upon must be shared electronically with the other party at least 10 working days prior to the hearing, unless mutually agreed upon by both parties. If the relied upon evidence is not provided by one party to the other in the timeline specified above, the party failing to provide the evidence shall concede the grievance.
23. The Company will provide to the Union any requested information from an employee's personnel file upon request. The Union will provide the Company a reasonable amount of time to gather and share such requested information.
24. The intent of the hearing is to have the Plant Chairperson or Union Representative speak on behalf of the Union and to have the Manager or Human Resource Business Partner speak on behalf of the company. There is to be no testifying or cross examination at a hearing. If the employee or Manager choose to speak during the hearing, other than to answer a question from the arbitrator, they subject themselves to provide verbal evidence through cross examination from the other party.

ARBITRATION PROCEDURE

Grievances appealed to arbitration as stated above, shall be scheduled for hearing within fifteen (15) working days following such appeal.

The parties agree upon the following panel of four (4) arbitrators. Assignment of cases to arbitrators on the panel shall be rotated in alphabetical order of the last names. Grievances carried to the arbitration stage shall be heard before a single arbitrator. If any of the agreed upon arbitrators become permanently unavailable throughout the term of the Collective Agreement, the parties will mutually agree upon a new arbitrator.

Martin Freedman
Arne Peltz
Colin Robinson
Michael Werier

Should the parties be unable to reach an agreement the Minister of Labour for the Province of Manitoba shall be requested to appoint a single Arbitrator.

The Arbitrator, when selected, shall meet with the National Representative of the Union, and the Human Resources Site Leader, or their designated representatives, at which time both parties will present their cases. Each party to the proceedings shall be entitled through Counsel, or otherwise to present evidence, to cross examine the witnesses of the other party, and to present oral arguments. A brief of argument may be presented by each party and each party shall be entitled to reply to the brief of argument presented by the other. Briefs of argument and replies thereto shall be filed within the times specified by the Arbitrator. A party presenting the brief of argument or reply to Arbitrator shall forthwith deliver a copy thereof to the other party. Argument and testimony shall be limited to the matters set forth in the written statement of grievance. Unless a mutual agreement as to the extension of time has been agreed upon by both parties, it shall be mandatory upon the Arbitrator to render their findings and decision within thirty (30) calendar days after conclusion of the hearings; and the decision of said Arbitrator shall be final and binding on both parties.

The Arbitrator shall not have jurisdiction to arbitrate away, in whole or in part, any provisions of this agreement. Each party shall pay any compensation and expense relating to its own witnesses or representatives. The total cost of the stenographic record (if requested) will be paid by the party requesting it. If the other party also requests a copy that party will pay one-half of the stenographic costs.

The decision of the Arbitrator shall be final and binding on both parties and their expense shall be borne in equal share by the Company and the Union.

Section 11.3 Grievance Mediation

- a) The Company or the Union may, within five (5) calendar days following receipt of a reply at Step 2 of the grievance procedure set out in Article 11 of the Collective Agreement, request that the other party agree that a grievance be referred to Grievance Mediation.
- b) A party's refusal to agree to refer a grievance to Grievance Mediation shall not be subject to the grievance procedure or arbitration provisions set out in Article 11 of the Collective Agreement.

- c) A grievance shall only be referred to Grievance Mediation where the grievance has been properly carried through the grievance procedure set out in Article 11 of the Collective Agreement and the Company and the Union have mutually agreed in writing to refer the grievance to Grievance Mediation.
- d) Where a grievance is referred to Grievance Mediation, the Grievance Mediation process shall be completed before the grievance may be referred to Arbitration in accordance with the arbitration provisions set out in Article 11 of the Collective Agreement.
- e) Grievance Mediation will commence within twenty-one (21) calendar days of the grievance being referred to Grievance Mediation, unless the time limit has been extended by mutual agreement in writing between the Company and the Union.
- f) The parties may agree to the appointment of a Mediator through the Minister of Labour, provided that such a Mediator is able to commence the Grievance Mediation within the time period set out in (e) above, unless the time limit has been extended by mutual agreement in writing between the Company and the Union.
- g) Proceedings before the Mediator shall be informal, the rules of evidence shall not apply, no record of the proceedings shall be made and neither party shall be represented by legal counsel before the Mediator.
- h) The Mediator will have the authority to facilitate and recommend a non-binding resolution of the grievance that is consistent with the Collective Agreement. The Mediator has no authority or power to compel the resolution of a grievance or to impose or require the parties to accept their suggested resolution of the grievance.
- i) If a grievance is not settled through the Grievance Mediation process after referral thereto, the Mediator shall provide the parties with an oral advisory opinion and the grounds for such opinion immediately following Grievance Mediation, unless both parties agree that no advisory opinion shall be provided.
- j) If a settlement is not reached within five (5) calendar days following Grievance Mediation, the grievance may be submitted to Arbitration in accordance with the arbitration provisions set out in Article 11 of the Collective Agreement. No person serving as Mediator may serve as Arbitrator.
- k) The Grievance Mediation process is without prejudice and nothing said or done by the Mediator or the parties during or in relation to the Grievance Mediation may be referred to at any subsequent Arbitration. Any documentation shared between the parties during the Grievance Mediation process must be treated as confidential, no copies of the documentation may be made without the permission of the party who provided the documentation and the party who was provided the documentation must immediately return it upon the completion of the Grievance Mediation.
- l) The Union and the Company will share any costs of the Grievance Mediation equally, except that the Union shall pay all applicable wages for time spent by any bargaining unit employee(s), including Union representatives, relating to the Grievance Mediation.

Section 11.4 Administering Time Limits

In administering the time limits specified in the grievance procedure under Article 11 of the Collective Agreement, the day of the complaint or grievance shall not be counted. The following working day shall be counted as the first day of the time limit. To answer a grievance or to submit a grievance at the next step the parties shall have until 3:30 p.m., the end of the day shift, on the final day of the time limit. The 3:30 p.m. deadline shall apply regardless of the time of day at which the earlier grievance/reply had been presented.

ARTICLE 12

AUTOMATIC RATE PROGRESSION

Section 12.1 An employee on the active payroll shall receive an automatic base rate increase of fifty (50) cents per hour on the dates listed in Section 12.2 below until they reach the rate range maximum of their assigned labour grade. If at the time of an automatic base rate increase, an employee's base rate is forty-nine (49) cents or less from the maximum base rate of their assigned classification, the increase will be the amount necessary to reach, but not exceed, the maximum base rate. Nothing in this Article, however, shall limit the Company at any time from placing an employee at any level in the progression schedule. Employees on progression may be assigned any work described for the job classification in which they are classified. Provisions of this paragraph do not apply to any employee whose base rate exceeds the rate range maximum of their assigned labour grade.

Section 12.2 The dates on which increases described in the Section 12.1 above shall be effective are:

July 3, 2023
January 1, 2024
July 1, 2024
January 6, 2025
July 7, 2025
January 5, 2026

ARTICLE 13

PROMOTION, LAYOFF, & RECALL PROCEDURE

Section 13.1 Purpose and Definition

Both parties hereto agree that continued service over a period of time should, and in most cases does, increase the worth of an employee to their employer, and that length of service should receive recognition and therefore agree:

that in the case of promotion the principle of seniority, where skill and ability are relatively equal, shall be the determining factor and shall apply upon a Company-wide basis in accordance with the specific applicable provisions of this Agreement.

Section 13.2 Filling Job Openings

The sequence in filling job openings will be as follows:

- 13.2(a) Employees with recall rights as defined in Section 13.6 below and employees permanently displaced from the job classification under the provisions of Section 4.6 or Section 9.5(c) who are now medically able to perform the work based on seniority.
- 13.2(b) After all the employees referenced in 13.2(a) above have been exhausted the Company will post in accordance with the provisions outlined in Section 13.3.
- 13.2(c) Lacking qualified employees under the procedure outlined in 13.2(b) above, the Company may fill such openings by hiring new employees.

Section 13.3 Job Postings

- 13.3(a) Every three months the Company will post for five (5) working days those jobs for which it expects openings to occur, other than on a temporary basis, during the three month period. Employees may submit requests on a Company supplied form to fill expected openings during the particular three month period. When openings occur, and after the provisions outlined in 13.2(a) above have been exhausted, employees with seniority who have submitted a request for the particular job will be given consideration. Employees will be selected in accordance with the principle of seniority as defined in Section 13.1. If a vacancy occurs which was not posted as outlined above, the Company will create a special posting that will remain open for five (5) working days and will select a candidate in accordance with the provisions of this section from among those employees who bid for the special posting. The Company will e-mail the names of the successful candidates to all bargaining unit employees. The Company will forward to the Union a copy of all job postings, a list of all applicants and qualified applicants as soon as available and a list of successful applicants following notification to these employees. The Union shall post the names of the successful candidates. The Company will forward to the employee a receipt at the time of application, a letter of notification to the employee regarding whether or not they were successful and, upon request, notification of whether or not they have passed any

required tests. Nothing in this provision, however, will prevent the Company from offering either employees involved in a surplus a lateral or downgrade reclassification in lieu of layoff or employees returning to the bargaining unit to a job classification previously held prior to posting.

The Company may, at times, determine a need for a term job assignment. The Company may post a term job following the same procedure as listed above but the vesting provisions outlined in section 13.3(c) will not apply in these circumstances. Term assignments will not extend beyond twelve (12) months from the date of appointment. The term may be ended by the Company prior to the posted end date. Upon completion of the term assignment the employee will be returned to the classification from which they left, provided their seniority permits. If a permanent job posting becomes available during the term assignment, the employee may apply to the posting in accordance with 13.3 (a). Employees will be compensated for term assignments in accordance with 6.1 (b). This provision will not prevent the Company from utilizing temporary assignments as per section 13.8.

13.3(b) An employee who is the most senior qualified applicant to a job posting shall have forty-eight (48) hours from when they receive their offer to both determine whether they will accept or deny it, and then return a signed copy to the Company. In the event that the response deadline falls on a weekend, the employee shall have until 3:30 PM on the following business day to return a signed copy. If the employee is unable to return a signed copy before the deadline they may respond electronically. Failure to respond will be considered a declined offer.

Should an employee decline more than one (1) offer during the period of July 1st to June 30th, the employee will be ineligible to apply for another bargaining unit posting for a period of six (6) months from the date in which they declined the latter offer.

13.3(c) An employee who successfully completes a Company provided Training Program shall be placed in the correlating job classification in accordance with section 13.2 and must accept the position if such placement is within twelve (12) months of completion of the training. Should an employee be eligible for multiple placements within the same period, the Company and Union will have meaningful discussion to resolve the conflict.

13.3(d) An employee who has bid for and accepted a permanent offer shall not be eligible to be considered for another job posting for a period of twelve (12) months.

13.3(e) Upon reclassification to a different job classification the employee will retain seniority for sixty (60) calendar days in the job classification from which he was reclassified. After sixty (60) calendar days, an employee's seniority will be vested on the new job classification to which they have been moved under successful application for the posted job. Employees will be given the normal familiarization with the job.

Section 13.4 Reduction in Force

- 13.4(a) In effecting a reduction in force within a job classification the following procedure shall be followed:
1. the first selection would be probationary employees;
 2. the second selection would be full time employees in reverse order of seniority subject to the use of retentions as defined and described in Section 13.5.
- 13.4(b)(1) Employees referenced in 13.4(a)(2) above, if their seniority permits, may elect to be moved within their occupational group to the next equal or lower job classifications.
- 13.4(b)(2) Employees referenced in 13.4(a)(2) who do not possess the seniority to exercise rights described in 13.4(b)(1) above, may elect to be moved to any equal or lower graded job classification previously held on a permanent basis if their seniority permits.
- 13.4(b)(3) Employees who are not able to bump to any equal or lower job classification as described in 13.4(b)(1) and 13.4(b)(2) above may elect to be moved to the job classification Technician Plastic if this classification is equal to or lower than the job classification held at the time of reduction in force and their seniority permits.
- 13.4(c) Employees who are unable to exercise bumping rights or who do not elect to be moved to the job classification of Technician Plastic or whose seniority does not permit them to hold the job classification of Technician Plastic will be laid off in reverse order of seniority.

Section 13.5 Retentions

A retention is the retaining, in a job classification in which the surplus has been declared by the Company of an individual whose seniority position would have caused the employee to have been surplusd while another employee or employees with greater seniority are surplusd. In each instance the retained employee will be designated, at the time the retention is used, to be retained in the job classification rather than be affected by the surplus action.

- 13.5(a) In determining the number of allowable retentions, calendar six-month periods shall be used, the first period in each year shall be from January 1 to June 30, inclusive, and the second period shall be from July 1 to December 31 inclusive.
- 13.5(b) For each period the allowable number of retentions applicable shall be the number resulting from applying 4% of the total number of employees in the bargaining unit on the first regular working day of each six month period. The number of allowable retentions shall be computed to the nearest whole number and a fraction of 1/2 or more shall be treated as one.

- 13.5(c) The Company will only transfer an employee under Section 4.4 if the employee has sufficient seniority at the time of transfer to hold the job classification in their own right. A retention may be used on that employee at any later date but not at the date of transfer.
- An employee who is on retention may be transferred out of the bargaining unit, and then be returned to the unit, and immediately be placed on retention again. However, the retention will be deemed to be used by the employee even while they are on this non-unit assignment, and will not be available for use in retaining another employee.
- 13.5(d) The Company's use of retentions in the number allowed or the surpluses resulting from the application and use of such retentions, shall not be subject to challenge or to grievance procedure.
- 13.5(e) The Human Resources Site Leader will have a meaningful discussion with the Chairperson of the Union as to the reasons for the use of any retentions.
- 13.5(f) Retentions shall be for a period not more than six (6) months unless otherwise extended by mutual agreement of the parties.

Section 13.6 Recall

- 13.6(a) Employees who had either held the job classification in which additional employees are required or had elected to be moved to such job classification at time of surplus but lacked sufficient seniority to displace another employee and who elected layoff benefits under Section 14.4 (b) (ii) will be grouped together by seniority for purposes of recall.
- Notwithstanding the above, employees who decline election as referenced in 13.4(b)(1), 13.4(b)(2) or 13.4(b)(3) shall forfeit seniority rights in that job classification.
- 13.6(b) Employees who opt to maintain their position on a mandatory recall list will be re-assigned, in order of seniority, to a classification where they hold recall rights, if the affected employee is actively employed (ie. not on layoff status), and if the new classification is of an equal or higher labour grade. In this event, those employees who are re-assigned will not be permitted to decline their recall.
- In all other events, an employee who declines recall to any job classification to which they have recall rights, shall lose their seniority if they are on layoff status.
- 13.6(c) If recalls are needed in Technician Trim, Technician Plastic, Technician Assembly or Storekeeper they will be grouped together by seniority for the purposes of recall. Notwithstanding the aforementioned, only employees who had successfully completed the Technician Assembly training program prior to being laid off will be considered for the Technician Assembly recall. Employees recalled to Storekeeper, Technician Plastic, or Technician Trim will be trained

upon recall as necessary. This provision is not intended to circumvent the Letter of Understanding entitled Training Programs.

In the event that the internal and external recall lists for any of the abovementioned classifications have been exhausted, the Company will offer the recall opportunity to employees on layoff status in order of seniority.

- 13.6(d) Notwithstanding the above, if the Company requires employees in a classification where there are currently employees on the external recall list but the Company does not require an increase in overall staffing levels, the Company may assign the most junior Tech Plastic for the required classification.

Section 13.7 Temporary Layoff

Anything to the contrary in this Agreement notwithstanding, when the Company determines it is necessary to reduce the number of employees working within a job classification, the junior employees in the affected work centre considered by the Company to have an excess number of employees, who are within such job classification, may be temporarily laid off for not more than thirty (30) calendar days in any one calendar year, with or without application of the procedures stated in this Agreement during such period of temporary layoff. The Company agrees that the Union will be notified whenever possible in advance.

Section 13.8 Temporary Assignment

The Company may temporarily assign employees to perform work assignments described for other job classifications. When such temporary assignment is to a higher rated job classification for more than one (1) day, the employee shall receive the rate of the new job classification.

When such temporary assignment is to an equal or lower rated job classification, the employee shall retain their current hourly rate of pay. When temporary assignments to higher rated job classifications are for sixty (60) calendar days or more, the selection of employees will first be from active employees on the recall list for the job classification of the temporary requirement. If such employees are unavailable, the selection of employees will be from the job classification, group and shift where the employees are being selected for the temporary assignment, by seniority. This Section will not be used to circumvent the job posting procedure as provided for in Section 13.3.

The Company shall make a reasonable effort to notify the Union in a timely manner when an employee has been temporarily assigned to perform work outside of their classification for more than one (1) day.

Section 13.9 Work Restrictions - Non Bargaining Unit Employees

Non bargaining unit employees shall not be permitted to perform any bargaining unit work except in the following types of situations:

- (a) In the instruction or training of employees.

- (b) In emergencies.
- (c) In developing production processes.

This clause will not be used to displace a production employee on a full time job.

It is understood that the quality of support provided by technical manufacturing support staff members to bargaining unit employees is directly impacted by their experience in actually performing the type of work performed by those bargaining unit employees. The Company and the Union therefore agree that technical support staff members may, as part of process improvement activities, perform production work only with the direct participation of a bargaining unit employee normally assigned that work. Such production work as it applies to a unit will be restricted to that number necessary to verify the process or material change related to the process improvement activity.

It is further agreed that no bargaining unit employee will be displaced by this activity and that no bargaining unit employee will be reclassified, reassigned or have their shift changed as a direct result of this activity. The Company and the Union will meet prior to technical support staff members' activity to discuss the intent and anticipated duration of their involvement in the production work. Further, the Company and the Union will discuss and resolve any issues that may arise from work activity defined in this letter.

ARTICLE 14

GENERAL

Section 14.1 Requirement of Medical Examination

- 14.1(a) In the interest of continued safety of individuals and their fellow employees, any applicant for employment may be required by the Company to undergo a medical examination by a doctor of the Company's selection. If, by reason of such examination, the applicant is rejected for employment, they will be furnished with a copy of the doctor's report.

An employee may be required by the Company to undergo a medical examination for reasons of medical surveillance due to potential exposure to harmful agents, determination of fitness to return to work from a medical related absence or if incapable of performing assigned work functions by a doctor of the Company's selection or if the employee's private physician performs any of the medical examinations for any of the above reasons, the results of such examination will be forwarded to a doctor of the Company's selection for review.

If an employee is found by such doctor to be medically incapable of performing their assigned work functions, the Company will furnish the employee with a copy of the doctor's report, inform the Union and will attempt to place such employee in work which, in the opinion of the Company, they are medically capable of performing. In the event that reassignment to a lower labour grade or involuntary separation from the payroll results from a finding of medical disqualification on the part of the Company, the Union may take such finding through the regular grievance channels; and such grievance, in order to be processed, (a) must be supported by medical testimony which is contradictory to the Company's findings and (b) must be filed by the Committee Person, or someone designated by them, with the Human Resources Director or someone designated by them, within fourteen (14) workdays after the date of such reassignment to a lower labour grade or such involuntary separation from the payroll.

- 14.1(b) All health records will only be accessible by health professionals.

Section 14.2 Inventions

- 14.2(a) Employees shall be permitted to retain ownership of an invention conceived or developed by them if the invention (a) was developed entirely on the employee's own time and the invention is one for which no equipment, supplies, facilities, or trade secret information of the Company was used; and (b) does not (i) relate directly to the business of the Company or to the Company's actual or demonstrably anticipated research or development, or (ii) result from any work performed by the employees for the Company. All other inventions shall be the property of the Company, and employees shall assist the Company in the protection of such inventions as directed by the Company.

- 14.2(b) No employee shall be required, as a condition of employment or continued employment, to sign an invention agreement which contravenes the provisions of 14.2(a).

Section 14.3 Technological Change

In this Article:

- 14.3(a) "technological change" means
- (i) the introduction by the Company into its work, undertaking or business of equipment, material, process or method of a different nature or kind than that previously used by the Company in the operation of its work, undertaking or business, and
 - (ii) a change in the manner in which the Company carries on its work, undertaking or business that is directly related to the introduction of that equipment, material, process or method.
- 14.3(b) The provisions of this Article are intended to assist employees affected by any technological change to adjust to the effects of the technological change.
- 14.3(c) Sections 83, 84 and 85 of The Labour Relations Act of Manitoba do not apply during the term of this Agreement to the Company and the Union.
- 14.3(d) The parties to this Agreement recognize that technological changes that result in increased efficiency and productivity must be encouraged and further that the parties have a direct responsibility to reduce to a minimum the adverse effects that may result from such changes.
- 14.3(e) If the Company decides to effect a technological change that is likely to affect the terms and conditions or security of employment of employees or to alter significantly the basis upon which this Agreement was negotiated:
- (i) the Company shall give the Union written notice prior to the technological change coming into effect and will meet and discuss with the Union the steps to be taken to assist the employees affected to adjust to the effects of the technological change;
 - (ii) if in the opinion of the Union the Company has failed to comply with subsection 14.3(e)(i) the Union may submit this in writing as a difference between the Union and the Company whereupon it shall be decided by arbitration whether or not the Company has effected a technological change that is likely to affect the terms and conditions or the security of employment of employees or to alter significantly the basis upon which this Agreement was negotiated; and
 - (iii) in the arbitration of a difference between the Union and the Company as referred to in subsection 14.3(e)(ii) such arbitration shall take priority over any other arbitration then in process.

- 14.3(f) In the event of a technological change requiring specialized training, the Company agrees to give first opportunity for that training to employees then on the payroll according to seniority of employees in the section or area affected.
- 14.3(g) In the event of the introduction of new technology resulting in work that requires the creation of a new job classification, job openings shall be filled in accordance with article 13.2.
- 14.3(h) Should the Company give written notice to the Union in accordance with subsection 14.3(e)(i) or if it has been decided by arbitration that the Company has effected a technological change that is likely to affect the terms and conditions or the security of employment of employees or to alter significantly the basis upon which this Agreement was negotiated, any employee, other than a probationary employee, who, because of the technological change, is laid off under Section 13.4(d) after all bumping provisions in Section 13.4 have been exhausted, shall, in addition to any other payment they are entitled to on the termination of their employment, be paid a layoff benefit in keeping with Section 14.4.

Section 14.4 Layoff Benefits

14.4(a) Eligibility.

All bargaining unit employees who have at least one year of Company service and who are involuntarily laid off from the Company under Section 13.4(d) or 14.3(g) are eligible to receive the benefit described in Section 14.4(b).

14.4(b) Amount and Payment of Benefit.

An eligible employee's total benefit shall equal one week of pay (i.e. 40 hours at the employee's base rate plus cost of living adjustment in effect on the date of layoff, but excluding any shift differentials or other premiums) for each full year of Company service as of the employee's layoff date, subject to a maximum benefit of 26 weeks of pay. Eligible employees may elect either of the following for permanent layoffs or layoffs beyond the duration set forth in Section 13.7:

- (i) Lump sum benefits will be paid following the effective date of layoff. Employees who elect this option will have all seniority under Article 4 and all recall rights under Article 13 canceled.
- (ii) Income continuation benefits will be paid in 80 hour increments, subject to an employee's total benefit, on regular paydays beginning with the second payday following the effective date of layoff. Income continuation benefits shall immediately cease upon the earlier of any of the following events: exhaustion of the employee's total income continuation benefit; re-employment with the Company; failure to respond to a notice of recall as described in Article 4; or change in the employee's employment status from layoff to resignation, dismissal, retirement, death, or leave of absence. Employees who elect this option will retain seniority as described in Article 4 and will retain recall rights as described in Article 13.

For Temporary Layoffs, as defined in Section 13.7, eligible employees may elect only income continuation benefits as described in Section 14.4(b)(ii) and shall not be eligible for the “lump sum” benefits under Section 14 (b)(i) unless or until the temporary layoff extends beyond thirty (30) calendar days.

14.4(c) Benefit Not Applicable for Other Purposes.

Periods for which an employee receives income continuation benefits shall not be considered as compensation or service under any employee benefit plan or program and shall not be counted toward Company service.

14.4(d) Continuation of Medical Coverage.

In the event of layoff, Supplemental Health Care, Prescription Drug and Vision Care Plan coverage continues for the employee and their dependents for up to three months after the end of the month in which layoff occurs or, if earlier, the date the employee becomes covered by another employer’s Supplemental Health Care, Prescription Drug or Vision Care Plan either as an employee or dependent.

Section 14.5 Tuition Fees

Reimbursement of tuition fees (to the extent such reimbursement is not available from a Governmental agency) will be provided for an employee who voluntarily and satisfactorily completes an off-hour course or training program offered by a Company-approved non-Company school or training organization as follows:

- 14.5(a) Course is a condition of employment - 100% reimbursement - in advance.
- 14.5(b) Course directly job related - 100% reimbursement - in advance.
- 14.5(c) The Company agrees to provide 100% reimbursement of tuition fees (to the extent such reimbursement is not available from a Governmental agency) to an employee who successfully completes a course which provides future benefit to the Company.
- 14.5(d) The course or training program is one that is not available to the employee in the Company's off-hours training programs and is of mutual benefit to the Company and the employee.
- 14.5(e) The course or training program must be available on a schedule that does not interfere with the employee's regularly assigned shift. The Company will be as flexible as possible in shift assignment to accommodate approved courses or training programs where the employee indicates at the time of application for training that they require a change to their regularly assigned shift.
- 14.5(f) Participation under the provisions of this Section 14.4 shall be subject to the following:

- (i) The number of participating employees shall not exceed 2% of the number of employees in the unit in which they are employed unless by mutual agreement.
- (ii) Application for such participation shall be made on forms provided by the Company and shall be submitted to the Company for approval prior to the beginning of such a training program.
- (iii) Reimbursement shall under no circumstances be considered as compensation to the employee or as part of their base wage or wages. The list of Company-approved non-Company schools and training organizations will be furnished to the Union.
- (iv) For any participating employee who is eligible for educational expense reimbursement from a Governmental agency, Company reimbursement will be reduced by the amount of reimbursement that the employee is eligible to receive from such agency.

Section 14.6 Non-Discrimination

The Company and the Union agree to abide by The Human Rights Code of Manitoba.

The Company and the Union agree that there shall be no discrimination, interference, restriction or coercion exercised or practiced with respect to any employee based on the protected grounds identified by the Human Rights Code of Manitoba, political belief or association or activity, or by reason of Union membership or activity.

The Accumulated Value of Company contributions made on behalf of each employee who is eligible to retire in accordance with the terms of the Plan on January 1, 1991 shall be fully and irrevocably vested and otherwise subject to the regular retirement provisions of the Plan. The Accumulated Value of Company contributions made on behalf of each employee who is not eligible to retire on January 1, 1991 shall be vested in accordance with the regular vesting provisions of the Plan on that date, and will continue to vest with continued employment subject to the regular termination of service provisions of the Plan.

Section 17.2 Establishment of Pension Plan.

Subject to the approval of the Minister of Finance for Canada and of other cognizant governmental authorities, as more particularly hereinafter specified, and to review by the Retirement Committee of The Boeing Company, and to the provisions of Section 17.5 hereof, a pension plan (hereinafter called the Plan) shall become effective on January 1, 1991 for the employees within the unit to which this agreement relates and shall continue while this agreement is in effect as to such employees in accordance with and subject to the terms, conditions and limitations of the Plan.

Section 17.4 Continuation Beyond Agreement.

The Company shall not be precluded from continuing the Pension Plan in effect as to employees within the units to which this agreement relates, after expiration or termination of this agreement subject to the terms, conditions and limitations of the Plan.

Section 17.5 Provisions of the Plan, effective January 1, 1991.

Subject to the approvals specified in Section 17.3, the Company will provide the provisions of the Plan effective January 1, 1991, in accordance with the following:

- 17.5(a) Effective Date: The effective date of the Plan shall be January 1, 1991.
- 17.5(b) Plan Funding: The Plan will be funded solely by the Company. Employee contributions are not required.
- 17.5(c) Eligibility to Participate: All employees within the unit to which this agreement relates who have one or more years of service with the Company on January 1, 1991 will become eligible to participate on January 1, 1991. For other employees within the unit to which this agreement relates, eligibility to participate shall become effective after one year of service with the Company.
- 17.5(d) Accrued Benefit: The Accrued Benefit for each employee in the service of the Company on or after January 1, 1991 will be equal to \$20.00 per month for each year of Credited Past Service and \$25.00 per month for each year of Credited Future Service.
- 17.5(e) Service Credit: For purposes of determining an employee's Accrued Benefit, an employee shall earn one full year of Credited Past Service for each calendar year of continuous Company service as a member of the bargaining unit prior to January 1, 1991 and after one year of service (one year after hire date). Partial years of Credited Past Service shall be determined as the number of days as an employee divided by 360.

One full year of Credited Future Service shall be earned for each calendar year of Company service as a member of the bargaining unit after January 1, 1991 and after one year of service during which an eligible employee has 1,710 compensated hours of service. Employees who are eligible participants for less than a full calendar year shall earn a fraction of a year of Credited Future Service equal to the ratio (not to exceed one) of the number of compensated hours while an eligible participant of the Plan during the year to 1,710. Compensated hours of service shall include paid vacation, paid holidays, paid sick leave, up to 17 weeks for maternity leave, up to 37 weeks for parental leave, up to 26 weeks while entitled to Weekly Disability benefits, overtime (at straight time) and the first 30 days of any Company approved leave of absence.

For purposes of determining eligibility for Plan participation, eligibility to receive benefits, and vesting status, service shall include all continuous service immediately prior to January 1, 1991 periods of continuous service immediately prior to satisfying the requirement of 17.5(c), and periods of absence while on military leave during a period of war or national emergency.

- 17.5(f) Retirement Eligibility: The Normal Retirement Date shall be the first day of the month coincident with or next following an employee's 65th birthday. An employee may retire on an Early Retirement Date which may be the first day of the month coincident with or next following the month in which the employee

completes at least ten (10) years of service and attains age 55. An employee who meets the requirements for total disability benefits under the Canada Pension Plan will be entitled to retire on a Disability Retirement Date provided such individual becomes disabled after attainment of age 50 and completing ten (10) years of Company service.

- 17.5(g) Early Retirement Reductions: An employee retiring from the service of the Company on an Early Retirement Date prior to age 62 will receive their Accrued Benefit reduced by 1/3% for each month that the Early Retirement Date precedes the first of the month coincident with or next following the employee's 62nd birthday. The benefits will be further reduced if the employee retires under the Spouse Option.

An employee retiring from the service of the Company on an Early Retirement Date at or after age 62, or on a Normal Retirement Date, or on a Disability Retirement Date will have their Accrued Benefit reduced only to reflect an election of the Spouse Option, if applicable.

- 17.5(h) Form of Payment: The normal form of payment will be an annuity payable for the life of the employee only. A married employee will receive payment in the form of a 66-2/3 Spouse Option annuity unless the employee and spouse waive this form of payment. Under the Spouse Option, the employee will receive a reduced monthly benefit during their lifetime with 66-2/3 of such reduced amount continuing for the life of their surviving spouse after their death. The reduced monthly amount payable to the employee participant will be determined by reducing the monthly benefit by six (6) percent if the employee's age and the spouse's age are within five years of each other. If the spouse is more than five years younger than the employee, such percentage shall be increased by 1/2 of one percent for each additional year that the spouse is younger than the employee. If the spouse is more than five years older than the employee, the 6% reduction factor shall be decreased by 1/2 of one percent for each additional year that the spouse is older than the employee.

- 17.5(i) Vesting: If an eligible employee's employment is terminated after the effective date of the Plan, prior to a Retirement Date, and other than by reason of death, and provided that such employee has completed two (2) or more years of service with the Company, such employee shall be entitled to receive their full Accrued Benefit beginning on their normal retirement date. If such employee has less than two (2) years of service, they will have no vested interest in the Plan.

- 17.5(j) Death Benefit: The spouse of a married employee or the named beneficiary of an unmarried employee who dies after satisfying the requirements for vesting as set forth in 17.5(i) shall be entitled to receive a death benefit. The amount of the death benefit is equal to the present value of the employee's Accrued Benefit at the time of the employee's death.

- 17.5(k) Reemployment After Retirement: An individual receiving retirement benefits under the Plan due to his or her service with the Company who is

subsequently rehired by the Company shall have all retirement benefits payable from the Plan suspended during any such period of reemployment.

During reemployment, such employee may earn Credited Service if otherwise eligible to participate in the Plan. Upon subsequent retirement, the suspended benefits shall recommence subject to the form of payment in effect at the original retirement date, regardless of whether or not the spouse is living if a Spouse Option was originally elected. However, for an individual who originally retired from the service of the Company, the payment will be increased to reflect any difference between any early retirement reduction at original retirement date and a revised early retirement reduction based on age at original retirement date advanced by the period of reemployment. To the recommenced benefits shall be added the benefit attributable to any Credited Service resulting from the period of reemployment.

The benefit payment of any individual receiving retirement benefits under the Plan due to service with the Company who is subsequently rehired and then dies during reemployment shall be determined as follows:

If a Spouse Option was elected at the date of original retirement, payments shall commence to the named spouse, if then surviving, otherwise no benefits shall become payable as a result of the original period of Credited Service.

If the employee is survived by a spouse eligible for a death benefit, such a benefit equal to the present value of the vested Accrued Benefit based upon any Credited Service earned during the period of reemployment shall become payable.

- 17.5(l) Plan Termination: In the event of the discontinuance of the Plan, Plan assets shall first be used for the payment of benefits and expenses of the Plan. Any remaining assets shall be distributed in accordance with the Income Tax Act and applicable provincial law.
- 17.5(m) Board of Administration: A Board of Administration consisting of three Company and three Union members will be established to jointly assure the proper administration of the Plan.
- 17.5(n) Copies of Reports to be Furnished to Union: Copies of actuarial valuations of the Plan and copies of certificates required by law shall be furnished to the Union.

Section 17.6 Changes to the Current Plan.

Subject to action by the Company's Board of Directors and to the approvals specified in Section 17.2, all provisions of The Boeing Canada Operations Ltd. Winnipeg Division Unifor Bargaining Unit Employees' Pension Plan are to remain unchanged with the exception of the following amendments:

RULES GOVERNING THE APPLICATION OF JOB DESCRIPTIONS

The following rules shall govern the application and interpret the intent of job descriptions and will be followed when job descriptions are revised or added to the plan:

1. The Determining Duties and Responsibilities are those elements of the job which distinguish it from higher or lower graded work. Performance of Associated or Incidental Duties and Responsibilities alone is not sufficient to determine a classification. It is intended that such associated or incidental duties shall not be distinguishing elements or determinants of a level of difficulty but are stated either for descriptive purposes or because they are integral and necessary parts of the job.
2. When paragraphs under Determining Duties and Responsibilities are numbered 1, 2, 3, etc., each paragraph is considered an alternative requirement.
3. An employee normally will perform some of the work of higher rated jobs and some of the work of lower rated jobs in the performance of their work assignment. The normal duties of any employee may include:
 - a) Assistance to others including demonstration of work to be performed and explanation of work area procedures.
 - b) The use of proper hand and power tools and special shop equipment required to facilitate the work assignment.
 - c) The submission of their completed work assignment or any portion thereof to inspection.
 - d) The reporting of any job handicaps such as errors in materials, tools, etc., in accordance with shop procedure outlined by supervisor.
 - e) The transmittal of pertinent information of own job to supervisor.
 - f) Obtaining and maintaining required licenses and certification.
 - g) Cleaning and maintaining work area.
 - h) Move and expedite parts, materials and assemblies within the plant and office location as required. This includes any bargaining unit employee moving other bargaining unit employee part, materials, and assemblies from or to the next or preceding step in the manufacturing process or between support functions.
 - i) The use of automated tools and automated equipment required to facilitate the work assignment. Automation is defined as the use of equipment, machines, tools that incorporate electronics, software/hardware and technology to improve the manufacturing and support processes.
4. Work assignments shall be in accordance with established job descriptions. This shall not restrict the right of the Company to alter work functions or to formulate new job procedures and begin work thereon, nor shall it restrict the right of the Company to

delete obsolete job descriptions and to notify the Union of such deletions. The Company shall have the right to make work assignments and require the employees to comply with such assignments. This shall not prevent the employees and/or the Union from processing complaints or grievances arising from alleged mis-assignments.

5. The employee is required to perform the work operation and duties described in or appraised as being covered by their job description with only a normal amount of guidance.
6. Any employee may be relieved of this normal classification assignment and assigned to teach and instruct on a full work time basis.
7. Lead Hand Definition:

Lead on the part of any selected employee means to delegate as authorized, a portion of their allocated work to employees assigned to work with them and pass on sufficient information to enable those employees to accomplish their work in a manner that will result in economy, quality and efficiency.

Employees selected to perform Lead Hand responsibilities will:

- a) Perform work, usually the most difficult, of the classifications led.
- b) Demonstrate, and instruct employees in, work of the classifications led.
- c) Be responsible for furnishing and interpreting accurate required information to assigned employees and others associated with the work.
- d) Plan, sequence, coordinate, check work and eliminate ordinary difficulties with assigned employees and others associated with the work.
- e) Individually and in groups, make detailed daily and overtime work allocations, including area housekeeping and management approved shift/work centre transfers, as instructed by the supervisor, in conformance with the classifications of employees being led, but will not make basic work assignments which affect the classification of employees.
- f) Normally lead ten assigned employees, but will lead at least one assigned employee.

Employees selected to perform Lead Hand responsibilities shall not make any recommendations concerning employment, release, transfer, upgrading or disciplinary action relative to other employees, or be directly responsible for the quantity or quality of work produced by other employees. This does not preclude a Lead Hand from providing management information on areas of concern within the work centre(s).

8. Team Lead Definition:

In a continuous effort to support the business model and lean initiatives, lead and guide production teams in one or more areas of the plant, the Company may implement Team Lead Positions.

Employees selected to perform Team Lead responsibilities will engage in some or all of the following as instructed by their manager:

- a) Work within an assigned area or areas.
- b) Demonstrate and instruct employees in work of the classifications led.
- c) Furnish and interpret accurate required information to assigned employees and others associated with the work.
- d) Plan, sequence, coordinate, check, and lead work with assigned employees and others associated with the work to eliminate difficulties. Monitor, address and recommend inventory levels within the assigned area.
- e) Individually and in groups, assign detailed daily and overtime work allocations, including area housekeeping, in conformance with the classifications of employees being led; will not make basic work assignments which affect the classification of employees.
- f) Understand the team's key performance indicators and aid in implementing processes to improve production, performance and efficiency of teams.
- g) Evaluate, analyze and address production problems, issues and concerns.
- h) Uses Systematic Problem Solving to lead the team through the resolution of production problems.
- i) Lead communication efforts. Work with other departments and organizations to help resolve production related issues.
- j) Facilitate team meetings.
- k) Performs (fills in) the roles of vacant positions due to absent bargaining unit employees within the work center(s).
- l) Will lead at least one (1) assigned employee

Employees selected to perform Team Lead responsibilities shall not make any recommendations concerning employment, release, transfer, upgrading or disciplinary action relative to other employees, or be directly responsible for the quantity or quality of work produced by other employees. This does not preclude a team lead from providing management information on areas of concern within the work centre(s).

No employee will be appointed to the role of Team Lead during their probationary period. In the event the company is considering promoting an employee to the role of team lead who has been employed less than 6 months, the Company will have meaningful discussion with the Union prior to appointment.

9. Webster's New International Dictionary, Third Edition, Unabridged, by G. C. Merriam Company, will be used to establish the meaning of words and phrases used in the job description.

JOB EVALUATION

1. The job evaluation plan, including the Formula, Rules and the job descriptions, titles and evaluations made there under as existing on the date of this Agreement, shall be and are hereby made a part of this Agreement.
2. During the life of this Agreement the Company will determine the necessity of any changes in job functions, descriptions and/or evaluations, and will prepare appropriate descriptions and job titles to cover any such changes. The Company will evaluate any new or changed job classifications so arising by application of the job evaluation formula and forward the new or changed job description to the Union, being free immediately to apply the change in operation. In the event the Union disagrees with the evaluation made of such new or changed job as described, it may within thirty (30) calendar days from the date the new or changed job description is forwarded by the Company challenge that evaluation on the basis of the job evaluation formula. The Company and the Union representatives thereupon will meet for the purpose of reaching agreement. If no agreement is reached within thirty (30) calendar days after receipt by the Union of the new or changed job description, the matter promptly will be referred to arbitration under Article 11, unless the period is extended by mutual consent of the parties.
3. In the event of a dispute as to the existence of a change in job functions, such dispute may be referred to the grievance procedure as set forth in Article 11, after 90 calendar days from the date the Union makes a request for a new description to cover a change in job functions, provided that this paragraph shall apply only in cases where the Union claims that the job functions as changed no longer are covered by an existing job description and that the change in job functions has been so extensive as to justify a change in labour grade of employees assigned to the work in question.
4. If the Union challenges the evaluation of any new or changed job classification as to which the Company has submitted a revised job description to the Union, and it is determined that the job is evaluated improperly, the Company will pay each employee involved at the corrected rate for time in which the employee has performed the determining duties specified in the job description subsequent to the date on which the Union notifies the Company in writing of its challenge of the job evaluation and within thirty (30) calendar days prior to that date.

LOU #1 Re: Autoclave Employees' Lunch and Rest Periods

The Company and the Union agree that it is in the best interests of all parties involved that autoclave operators, when and where operational requirements exist that require an operator to work through their lunch and/or rest period, will be compensated for the time worked through their rest period at the appropriate rate and will not be charged the overtime accumulation for the time worked, as it is not under the operator's control to elect to work the overtime.

It is the Company's and the Union's intent that no employee should work through their rest periods without an operational requirement to do so. However, given the nature and inherent function of the autoclave area, both parties agree that situations will arise where autoclave operators will be required to work through their rest period. In such cases, provided the employee agrees to do so, the Company may assign the employee to continue working without consent from the Union. Where concerns regarding distribution arise, then the Company and the Union agree to meet and have meaningful discussions in an attempt to resolve these issues.

In instances where an autoclave operator works through their rest period(s), they will be permitted to end their shift after having worked eight (8) continuous hours and will be compensated for nine (9) hours. If the employee chooses to work eight and a half (8.5) continuous hours, then the resulting compensation will be for 9.5 hours.

Sincerely,

Stephanie Doggett
Director of Human Resources

LOU #2 Re: Before-Shift Overtime Opportunities

In the event that Company electronic overtime systems permit the canvassing of weekday before-shift overtime opportunities, the parties agree to the following:

- For Weekday before-shift overtime opportunities:

<u>Shift</u>	<u>Time to Respond</u>
Midnight Shift	3:30 a.m. to 5:00 a.m. on their immediately preceding weekday shift
Day Shift	12:00 p.m. to 1:30 p.m. on their immediately preceding weekday shift
Evening Shift	8:30 p.m. to 10:00 p.m. on their immediately preceding weekday shift

For example, a day shift employee must sign up by 1:30 p.m. on Friday of the prior week for a Monday before-shift overtime opportunity;

- All before-shift overtime opportunities will be offered to eligible employees in the same manner as all other opportunities. However, for before-shift overtime opportunities immediately following a weekend or statutory holiday, the opportunity will be offered in accordance with the computerized list that was in effect for the prior week (ie. the order in place on the immediately preceding Friday shift);
- No employee shall be charged for or permitted to work any cumulative opportunities in excess of four (4) hours for any weekday shift;
- In the event an employee accepts a before-shift overtime opportunity, but fails to attend work for any portion of said opportunity, they will not be permitted to make up their time, accept or work a subsequent after-shift overtime opportunity, if applicable, on the same day. This in no way modifies the Company's ability to address regular shift absenteeism through the Attendance Policies;
- The Company will communicate these changes to all active bargaining unit employees at least thirty (30) calendar days prior to implementing;

LOU #11 Re: Investigatory Meetings

This will confirm the agreements between the Union and the Company concerning Union involvement in discipline, and investigatory meetings with represented employees:

- (1) The Company will ensure that a committee person is present during an investigatory interview or interviews between a Human Resources representative, a Manager and an employee who may be subject to disciplinary action or an employee who may have been witness to the incident precipitating the investigation. The committee person will participate in the interviews only for the purpose of clarification of facts from the employee and Company.

- (3) If an employee is reprimanded in writing and such reprimand is placed in the employee's personnel folder, a copy of the reprimand shall be given to the employee. An electronic copy of the reprimand shall also be given to the Union Representative and Plant Chairperson. Reprimands antedating a period of twelve months excluding leaves of absence and/or layoff status during which no additional written reprimands involving the same subject (example: attendance) have been received will be expunged from the employee's personnel folder.
- (4) An employee suspended or discharged will be advised, prior to the administration of discipline, of their right to have a Union Representative at the meeting. If the employee desires, the Union Representative will be contacted and given a place and reasonable time for discussion with the employee both prior to and following the scheduled discipline meeting. The committee person will not participate in the discussion with the supervisor and the employee.

The parties agree that nothing in this letter is intended to limit the right of a Manager or supervisor to have private discussions with an employee. LOU #14 Re: Lateral Transfers

The Company and the Union recognize that lateral transfers (ie. within the same classification and shift) are necessary to the effective flow of operations. Therefore, the parties agree to the following regarding lateral transfers.

When an employee has been laterally transferred for forty-five (45) calendar days or less, they will be reassigned to their originating area upon completion of the assignment. If multiple employees have been laterally transferred and are returning to their original work area on the same date, they will be reassigned in order of seniority.

The parties acknowledge that a transparent selection process with seniority considerations is typically preferred. As such, when the Company anticipates a need for a lateral transfer in excess of 45 calendar days, Management will endeavor to adhere to the following process:

- Management will canvass for volunteers and identify qualified employees based on their knowledge, skills and abilities.
- Qualified employees will then be selected by seniority for the opportunity from the area(s) identified by Management; and
- When there are not enough volunteers, Management will select employees for the lateral transfer in reverse order of seniority.

In some cases, business/production requirements may cause Management to deviate from the above process. In these situations, Management will provide the Union with the business/production requirement and rationale for the exception.

LOU #20 Re: Overtime Distribution & Canvassing

This message will serve as the official documentation of overtime distribution, canvassing and requirement procedures that have been agreed upon between the Union and Management for the purposes of administering Section 6.4(a) of the Collective Bargaining Agreement.

I. STATEMENT OF OBJECTIVES

The Company and the Union agree that a system which provides for the equitable distribution of overtime opportunities to willing employees is an important part of the Collective Agreement; that the groups be composed of employees in the same classification; and that accurate, up to date records of overtime distribution be maintained. It is further agreed that it is also an important objective that employees make a sincere effort to work the required overtime after agreeing to do so.

II. OVERTIME WORK GROUPS

A. The Company shall establish overtime work groups which shall be the foundation for equitable distribution of overtime.

B. Establishment of New Work Groups

The Company shall strive to maintain a reasonable number of work groups. When it becomes necessary to increase, change or reduce the number of existing work groups, the Company shall meet with the Union's representatives to discuss the changes at least 30 days prior to implementing the changes to the overtime groups. The consultation process shall include a written communication on a form titled, "Overtime Group Change Form."

The Manager shall complete the, "Overtime Group Change Form" clearly describing the need for the change in overtime group(s) and the reason for the change(s). The Union shall have 5 working days from the time they receive the form to provide written communication directly on the form relating to any concerns or issues around the change(s) in overtime groups as described on the form. The parties will subsequently meet to discuss any concerns.

After making every effort to address any issues or concerns that the Union has provided on the "Overtime Group Change Form," the Company retains the right to unilaterally make any required changes. There shall be no overtime group that consists of less than two (2) employees, unless business restrictions prevent Management from doing so.

III. ADMINISTRATION

A. Procedure for Offering and Recording Overtime Opportunities

- (i) Management shall be responsible for:
 - 1. Maintaining opportunity list by seniority, in accordance with recognized overtime work groups.
 - 2. Identifying overtime requirement by overtime work group, numbers of employees, length and time required and shift.
 - 3. Authorizing overtime.
- (ii) Management of designate shall be responsible for:
 - 1. Filling the requirement by canvassing employees for available overtime via the Computerized Overtime Lists.
 - 2. Posting daily the list of people working overtime at least one (1) hour prior to the end of each shift.
- (iii) Employees shall be responsible for:
 - 1. Indicating on the Computerized Overtime Lists their acceptance or refusal of a weekday overtime offer as soon as possible, but no later than two (2) hours prior to the conclusion of their assigned shift. Failure to respond to this offer shall be considered a refusal of offered overtime.
 - 2. Working the authorized hours of overtime only.
 - 3. Checking daily the list of people working if they have indicated via the computer their intent in working overtime.

B. Integration of Employees onto Established Lists

Employees who are permanently reassigned to a different overtime work group will transfer all hours accrued in their previous group to their new group and will be immediately integrated into the new group. New hires, recalled employees and employees that have received a change in classification shall be charged with the average of that group and will be immediately integrated in. Employees temporarily reassigned are eligible for overtime in their new overtime group on the Monday following the first full shift of reassignment.

C. Lead Hands/Team Leads

Shall fall into normal rotation within groups.

D. Recording Opportunities

All employees not available at the time of scheduling, or have medical restrictions and refusals are recorded on the overtime record. In the event that Sunday overtime is identified on Saturday, those employees that were not available for Saturday shall not be charged for Sunday. Employees that are called in for emergency situations shall have the call-in hours worked recorded as overtime opportunity. Only the number of employees canvassed which are necessary to fill the overtime requirement will be charged with the overtime opportunity.

E. Administration of Lists

Computerized lists shall be created for each overtime work group in seniority order. Overtime shall be offered from the top of the list (most senior) down, until the requirement is filled. When another requirement is identified, management will continue down the list from the original cut off and provide the additional opportunity to the next employee(s) on the list that have indicated they want to work until the new requirements are met. If requirements are not met by the bottom of the list, Management will re-canvass employees who were previously canvassed but had originally declined until the requirement is met. If the requirements are reduced, Management will verbally notify those with the highest accumulation of hours that their opportunity has been cancelled. Employees will not be charged for this opportunity. At the end of each week, the computerized list shall be reordered beginning with the employee who has the least number of hours offered and ending with the employee with the most number of hours. Overtime shall be offered based on the reordered list in the same manner as the seniority based original list from top seniority. The order of employees on the computerized list with the same number of hours shall be by seniority order.

In the event of the need for a manual canvass. Management has the option of canvassing each employee in person or can post a list in a designated area for employees to sign up for overtime. If the need for the canvass is determined within one hour of the shift end time, Management can only canvass in person.

F. Weekday Lists

The weekday lists shall divide employees within an overtime group, into first, second, and third shifts. Any overtime requirements shall be offered based on when the available work is to be accomplished. This shall occur as soon as possible, and whenever possible no later than three (3) hours prior to the completion of the shift that is immediately proceeding the shift that the overtime is offered for unless unforeseen circumstances arise that prevent this from occurring. If overtime requirements are determined after the time limit specified above, the Manager of designate will manually canvass the eligible employees on the list.

G. Weekend Lists

The weekend lists shall group all employees by overtime group, regardless of shift assignments onto one list. This list shall be used for canvassing for available overtime opportunity for the weekend. Overtime will be offered according to the employee's place on the list. Overtime hours will be added to the employee's total overtime hours and will form part of their new cumulative total. Initial assignment to this list will be from least to most hours and then averaged into the group.

- i) Management shall make every reasonable effort to make a determination of overtime requirements three (3) hours prior to the completion of first shift Thursday.
- ii) If overtime requirements or additional requirements are determined on Friday and Saturday, then the shift currently working shall be manually canvassed from the all-up list. Under normal circumstances Sunday overtime will be canvassed at the same time Saturday overtime is canvassed.
- iii) Where shift work is required on weekend overtime, the overtime whenever possible shall be offered consistent with the employee's shift assignment in the previous week. If this does not meet operational requirements, employees shall be offered an overtime opportunity on a shift according to employee's place on the list.
- iii) Statutory holidays falling on a Monday shall be included in this weekend overtime agreement.

H. Downtime Provisions

In the case of a failure of the Computerized Overtime Lists, overtime shall be offered according to the previous week's lists.

I. Overtime Discrepancies

It is the responsibility of each employee to check their cumulative overtime hours each Monday, or as soon as possible thereafter, and to report any discrepancies to their Manager immediately. Complaints shall be confined to discrepancies or changes occurring within the ten (10) calendar days prior to the Monday. If there is no complaint by an employee, or the Union on behalf of the employee in accordance with Article 11, Grievance Procedure, the employee's cumulative overtime hours up to that Monday shall be deemed correct.

J. Overtime Assistance

In the event that an employee is performing their job duties while on overtime and requires assistance in carrying out a specific task, the Company shall have the right to assign another employee regardless of classification or overtime group to provide assistance rather than calling in additional overtime provided that all of the following conditions are met:

- There is no one from the employees own group and shift present in the

workplace to assist;

- The employee assigned to assist must be physically capable of performing the particular task;
- All assistance must be of a safe and reasonable nature;
- Assistance shall not exceed a cumulative period of thirty (30) minutes in length;
- Assistance shall not include the determining duties of another classification.

K. In the event that there are no employees canvassed or currently working in a specific overtime group, an employee from a different overtime group but within the same classification, may perform the work normally performed by that group for up to a cumulative period of thirty (30) minutes.

L. Overtime Canvassing

- The time frame for employees to accept overtime opportunities is 1.5 hours.
- For “All Up Weekend” canvassing opportunities, the acceptance cut-off time for all employees will now be 11:00 a.m. Friday morning. When the number of employees required show as “999”, employees should recognize this indicator as an All Up Weekend opportunity.
- When the number of employees required show as “998”, employees should recognize this as an indicator as an All Up Weekday opportunity.
- The new employee response times are as follows:

For Weekday overtime opportunities:

Shift	Time to Respond
Midnight Shift	3:30 a.m. to 5:00 a.m.
Day Shift	12:00 p.m. to 1:30 p.m.
Evening Shift	8:30 p.m. to 10:00 p.m.

For Weekend overtime opportunities (Not All Up):

Shift	Time to Respond
Day Shift	Thursday, 12:00 p.m. to 1:30 p.m.
Evening Shift	Thursday 8:30 p.m. to 10:00 p.m.
Midnight Shift	Friday, 3:30 a.m. to 5:00 a.m.

For Weekend overtime opportunities (All Up or “999” required):

Shift	Time to Respond
Day Shift	Thursday, 12:00 p.m. to Friday, 11:00 a.m.
Evening Shift	Thursday 8:30 p.m. to Friday, 11:00 a.m.
Midnight Shift	Friday, 3:30 a.m. to 11:00 a.m.

- Those employees who work unauthorized overtime will not be paid.

- Those employees who are on-site training (including other Boeing Winnipeg sites) will still be able to respond to the overtime opportunity at any terminal in either building, this should not be an issue.
- For those employees who are off-site training, on Jury Duty, or on Union business, it is that employee's responsibility to make every effort before their training date to let their Manager know via voice mail and e-mail of their desire to work overtime before the cut-off time, should the opportunity arise. It is in this occurrence only employees may phone their Manager to confirm overtime authorization.

Nothing in this letter of understanding limits the Company's ability to transition to a new electronic overtime or time keeping system, which may change the overtime codes identified above.

Sincerely,

Stephanie Doggett
Human Resources Director

LOU #22 Re: Preferred Shift Selection

OBJECTIVES

The Company and Union have agreed to a shift preference system that will replace the existing language in the collective bargaining agreement. The shift preference system recognizes the principle of seniority while at the same time takes into account operational requirements of the business.

PROCEDURE

- I. The Company retains the ability to establish shifts and shift requirements. The shift preference system will work as follows:
 - A. Employees hired prior to July 11, 2005 shall have the opportunity to declare their preferred shift selection on the first Monday of every month. In the event of Monday being a holiday, Tuesday will be used. These employees will have the option of selecting any available shift.
 - B. Employees hired after July 11, 2005 will have the opportunity to declare their preferred shift selection on the first Monday of every month. In the event of Monday being a holiday, Tuesday will be used. These employees will have the option of selecting any available shift excluding a 2x2 rotating shift option.
 - C. The Company will assign employees hired after July 11, 2005 to an evening or midnight shift subject to availability. Generally, in classifications where current employees are assigned to a 2x2 rotating shift, new hires assigned to evening shift, and current employees assigned through the preferred shift selection process to evening shift, will create a day shift opportunity.
 - D. For the purposes of orienting new hires, the Company may assign those employees to a day shift for a period of up to twenty (20) working days, including overtime. The Company, after discussion with the Union, may extend the orientation period by an additional fifteen (15) working days. Any extension beyond thirty-five (35) working days will require mutual consent of both the Company and the Union. When employees are hired or recalled, they will complete a shift preference form. Recalled employees may be assigned to a day shift for a period of up to twenty (20) working days, including overtime, for orientation and familiarization purposes.
 - E. When declaring their preferred shift selection, employees will have the option to select their preferred shift and whether they are willing to move to obtain their shift or limit their selection to their current work area. Should an employee indicate they are willing to move, they must be willing to move to any work area or site location within their classification. If when offered the shift they decline the move, their name will be removed from the shift preference list immediately

and will remain off the list for a period of six (6) months. The six (6) months will commence the first Monday of the following month and in order for the employee to be added to the list, they must submit a form prior to the first Monday of the seventh month following their decline.

- F. From the submissions, the Company's shift preference administrator will maintain lists of preferred shifts and seniority will be the basis for filling any shift vacancies within a classification. These lists will only be available for Human Resources, the Union and Senior Managers to view. When shift assignments are vacated the Company may decide to fill them. A vacancy may arise when an employee is reclassified, resigns, retires or otherwise terminates employment. A Manager will not arbitrarily assign anyone permanently to a preferred shift without first consulting with the shift preference administrator and the Union.
- G. From the submissions as of the first Monday in December, 2% of the senior employees (rounded up to the next person) per classification will be permitted to bump more junior employees in order to obtain their shift preference, effective the first Monday in March. Only employees willing to move to obtain their shift preference will be considered for bumping. Once the initial list of employees who fall within the 2% for bumping is determined, no other employee shall be permitted to bump a more junior employee in order to obtain their shift. An employee who falls within the 2% for bumping shall be permitted to decline their shift. If, when offered the shift, the senior employee declines the move, their name will be removed from the shift preference list immediately and will remain off the list for a period of six (6) months. The six (6) months will commence the first Monday of the following month and in order for the employee to be added to the list, they must submit a form prior to the first Monday of the seventh month following their decline. The bumped employee will complete a shift preference form within 2 days of being notified and will be placed on the shift that their seniority allows. Beyond the 2% the Company will maintain lists of preferred shifts and seniority will be the basis for filling any shift vacancies/opening within a classification.
- H. Shift openings will be determined by the Company and will be filled by using the lists. In those cases where operationally necessary and no one has declared such shift as a preferred selection, these shifts will be filled by volunteers and then by reverse order of seniority.
- I. Employees who are absent from work for more than thirty (30) calendar days at the time their shift preference opportunity arises shall be by-passed but not removed from their respective list. Exceptions to this may occur by mutual agreement between the Company and the Union.
- J. Employees who change classifications shall have their shift choice carried over to the list of their new classification. The employee will obtain their preferred shift if their seniority permits them to bump a junior employee that is currently on their shift. The bumped employee will complete a shift preference form within two (2) days of being notified and will be placed on the shift that their seniority allows after a minimum of ten (10) working days.

- K. In the event that there is a reduction in the number of shift opportunities within a classification for any shift, the Company will reassign employees to another shift firstly by volunteers and seniority and secondly by reverse order of seniority in order for the most senior employee to maintain their preferred shift.
 - L. Bargaining unit employees who leave the unit for a non-bargaining unit position will maintain their preferred shift for a period of eighteen (18) months. Should they return to the bargaining unit within eighteen (18) months they will be returned to their preferred shift provided that there is no senior employee on the shift preference list that has requested that shift and provided that there is a vacancy on that shift. In no way will another employee be displaced from either their shift or area as a result of another employee returning from a non-bargaining unit position. If there is no vacancy on their preferred shift, the returning employee will be put on a shift that is available and submit a shift preference form and follow the shift preference language to obtain their preferred shift.
 - M. Classifications will be able to be excluded from the shift preference process upon mutual consent of the Company and the Union.
- II. The current restrictions process for medical assignments shall continue.
 - III. The parties recognize that there may be issues that arise in respect to this Letter of Understanding and they agree to meet and make every effort to resolve the issues as they arise.

Sincerely,

Stephanie Doggett
Director of Human Resources

LOU #24 Re: Protective Clothing

This will confirm our agreement between us that the following Protective Clothing benefit will continue based on the following criteria:

Category 1 - Specialized protective clothing identified by the Company as necessary to perform the duties and responsibilities within the employee's current job classification shall be provided by the Company within identified limits. Specialized protective clothing is designed to provide additional protection to the employee against physical, electrical, fire/flame, heat, controlled environmental (freezer storage), environmental exposure (shipping and receiving docks) and/or chemical hazards including protection against product contamination and includes cloth (non-disposable) lab/shop/office coats, smocks, shirts, pants, work jeans, high visibility insulated jackets, or coveralls. All employees are required to return specialized protective clothing to the Company upon transfer/reassignment, termination of employment, and retirement.

Quantity – specialized protective clothing paid by the Company for a maximum of three each of one category and/or type as determined by the Company for the job classification and area of work. Quantity may exceed maximum if it is deemed necessary by the Company to ensure appropriate cleanliness due to the type of work performed.

Laundering – paid by the Company when supplied through Boeing issued clothing provider for lab/shop/office coats, smocks, shirts, pants, work jeans, or coveralls.

Reasonable repairs or replacement – paid by the Company due to damage and/or wear while performing assigned duties will be paid by the Company only when supplied through Boeing issued clothing provider for lab/shop/office coats, smocks, shirts, pants, work jeans, or coveralls. Boeing will not be responsible for repairs or replacement if employee elects to not wear Company provided clothing.

Administration - The Contract provider(s), quantity, type and administrative practices for ordering, assigning, controlling and replenishing all approved protective clothing shall be at the sole discretion of the Company.

The Company and the Union agree that for Category 1 Protective Clothing in the classifications of Maintenance Electrician, Maintenance Mechanic, HVAC Mechanic, Maintenance Assistant, and Technician Plastics permanently assigned to the Facilities department (ie. Janitors), employees may elect to have protective clothing issued to them under the following conditions:

Clothing credit – participating employees in the abovementioned job classifications will be provided a \$300.00 annual clothing credit at Mark's Work Warehouse. This clothing credit will be used solely for the purpose of purchasing protective work clothing to be used while performing job duties at a Boeing location.

For the purposes of clarification, the clothing credit will be issued at the start of the calendar year (ie. January 1st). Any additional employee who becomes eligible for the allowance will immediately have access to the full clothing credit for that calendar year. Employees may combine two (2) calendar years' entitlement (current year plus previous year for a total of \$600.00). Any unused clothing credits at the end of the second calendar year will become forfeited.

Eligible clothing – Only protective clothing listed on Boeing Winnipeg's Uniform Authorization Voucher may be purchased with the clothing credit.

Alterations – Alterations to the purchased work clothing will either be performed by Mark's Work Warehouse with the cost of alterations deducted from the clothing credit or will be the responsibility of the employee.

Returns – Should an employee return an item to Mark's Work Warehouse that was purchased through their clothing credit, the amount of the return will be credited back to their clothing credit and may not be taken as cash or any other form of credit. Employees must adhere to Mark's Work Warehouse policies for returns or exchanges of items purchased under this agreement.

Laundering – Employees will be responsible for the cleaning of the purchased protective clothing and will ensure that the clothing is cleaned on a regular basis.

Reasonable repairs or replacement – The Company will repair or replace protective work clothing that is torn or damaged in the course of performing job duties at a Boeing location, upon receipt of such damaged article of clothing. Boeing will not be responsible for repairs or replacement if an employee elects to not wear Company-paid protective clothing as outlined above.

Category 2 - Inclement weather protective clothing identified by the Company as necessary to perform regular duties outside while at a Boeing location will be provided by the Company. Protective clothing in this category includes winter parkas, winter outer pants, outer rainwear (pant/jacket), CSA approved rain boots with toe protection, winter gloves, winter head/ear protection (balaclavas or toques), CSA approved winter boots with toe protection, and thermal winter socks. Outerwear jackets shall meet high visibility standards. Employees permitted for clothing in this classification includes permanent positions as Maintenance Electrician, Maintenance Mechanic, HVAC Mechanic, Maintenance Assistant and Plastic Technicians performing full-time work as a maintenance janitor. All costs for inclement weather protective clothing shall be subject to defined cost (clothing allowance) and/or quantity limits over the period of the Collective Agreement. All employees are required to return inclement weather protective clothing to the Company upon transfer/reassignment, termination of employment, and retirement.

Quantity – Inclement weather protective clothing if determined necessary by the Company, shall be limited to annual maximum of \$250.00 per year. Funds from future years may be combined to allow purchases that may exceed the annual limit as long as the total value does not exceed the combined years of the contract period. When combining annual purchase values, no more than one (1) set/piece/type of clothing may be purchased. Clothing above the annual and/or combined contract period value will be the responsibility of the employee.

Laundering – paid by the Company when supplied through Boeing issued clothing provider for outerwear jackets and pants. Employees may launder at their own expense but must follow manufacturers recommended cleaning instructions to ensure ongoing performance of the garment’s high visibility protection.

Reasonable repairs or replacement - Upon receipt of a damaged article of clothing, the Company will repair or replace protective work clothing that is torn or damaged in the course of performing job duties at a Boeing location. Boeing will not be responsible for loss of Company reimbursed clothing or repairs or replacement costs if an employee elects to not wear Company provided clothing.

Administration - The Contract provider(s), quantity, type and administrative practices for ordering, assigning, controlling and replenishing all approved protective clothing shall be at the sole discretion of the Company.

LOU #26 Re: Reduction in Technician Trimming

Notwithstanding Section 13.4 of the Collective Agreement, in effecting a reduction in the Technician Plastic, Assembly Technician and Technician Trimming job classifications, the following procedure will apply:

1. This procedure shall apply to those employees who are in the following job classifications:
 - 1) Technician Plastic
 - 2) Technician Trimming
 - 3) Assembly Technician
2. During periods of layoff when the Company has determined that no additional layoffs are expected within three months from the last layoff date, the Company will take measures to ensure that in the classification of Assembly Technician, Technician Plastic or Technician Trimming, no senior employee will be subject to layoff from one classification while a junior employee remains in another classification. Any adjustments to the layoffs will be made within the notice period for the last layoff date.

In applying the above, the following conditions will apply:

- a) Employees who have previously declined election to the Technician Trimming classification shall not be eligible;
- b) Employees who decline recall to the Technician Trimming classification shall not be eligible.

In those situations where an employee in the Technician Plastic or Assembly Technician classification does not possess the demonstrated skill and ability or valid training course, but still has more seniority than an employee in the Technician Trimming classification, the Company will offer the employee Technician Trimming training.

- “valid”, as used above means the successful completion of applicable course or courses within the previous 12 month period. Any employees under this Letter of Understanding who have previously successfully completed a course or courses as set out and 12 months have elapsed since the completion of this course or courses will be provided refresher training on Company time.

In those situations where training is offered the training will be offered subject to the following conditions:

- Technician Trimming training will be offered to employees via a Letter of Offer to train, on a one-time basis only. Employees shall be given (3) working days to accept or decline the offer.
- Employees who accept the opportunity for Technician Trimming training, and successfully complete the training, must exercise their right to bump into the Technician Trimming job

classification upon the successful completion of the training, or as per operational requirements.

- Employees who are offered Technician Trimming training via a Letter of Offer to train, and decline the training for any reason, will not be offered further opportunities for training other than training opportunities offered through the normal posting procedure as per Section 13.3 (a).
- Employees must successfully complete the training prior to bumping to the Technician Trimming job classification.

This Letter of Understanding will expire on June 16, 2023.

LOU #27 Re: Reduction in Workforce

Notwithstanding Section 13.4 of the Collective Agreement, in effecting a reduction in the Technician Plastic or Trim Technician job classifications, the following procedure shall be followed:

1. This procedure shall apply to those employees who are in the following job classifications:
 - 1) Technicians Plastics
 - 2) Trim Technician
 - 3) Assembly Technician
 - 4) Storekeeper

2. Employees who hold positions in Plastic Technician, Trim Technician or Storekeeper job classifications, and whose position will be subject to layoff, may exercise bumping rights from the Plastic Technician, Trim Technician or Storekeeper job classification to the Assembly Technician job classification if seniority allows, and if the employee has either previously gained vesting rights, as per Section 13.3 (b), in the Assembly Technician job classification, or possesses valid and successful completion of a course or courses recognized by the Boeing Training & Development Department as applicable for the Assembly Technician job classification.
 - “valid”, as used above means the successful completion of applicable course or courses within the previous 12 month period. Any employees under this Letter of Understanding who have previously successfully completed a course or courses as set out and 12 months have elapsed since the completion of this course or courses will be provided refresher training on Company time.

This provision will only apply in situations where employees in the Plastic Technician, Trim Technician or Storekeeper classification, who have more seniority than employees in the Assembly Technician classification, are about to be laid off.

Upon determining the need for a lay-off, the Company will determine how many positions in the Technician Plastic classification are going to be affected. The Company will then generate a seniority list for both classifications and will generate a list of Plastic Technicians, Trim Technicians and Storekeepers who have more seniority than Assembly Technicians.

In those situations where employees in the Plastic Technicians, Trim Technician and Storekeeper classifications possess more seniority than an employee in the Assembly Technician classification, the Company will determine if the most senior Plastic Technician, Trim Technician or Storekeeper has the valid course or courses as defined above, to perform the Assembly Technician duties.

These employees will be offered a position(s) as an Assembly Technician in direct proportion to the number of employees about to be affected by the bump or layoff. The employee has three (3) working days to accept or decline the offer.

In those situations where the most senior Plastic Trim Technician or Storekeeper does not possess the demonstrated skill and ability, but still has more seniority than an Assembly Technician the Company will offer after-hours, off-site Assembly Technician training.

In those situations where training is offered the training will be offered subject to the following conditions:

- Assembly Technician training will be offered to employees via a Letter of Offer to train, on a one-time basis only. Employees shall be given (3) working days to accept or decline the offer.
- Employees who accept the opportunity for Assembly Technician training, and successfully complete the training, must exercise their right to bump into the Assembly Technician job classification upon the successful completion of the training, or as per operational requirements.
- Employees who are offered Assembly Technician training via a Letter of Offer to train, and decline the training for any reason, will not be offered further opportunities for training other than training opportunities offered through the normal posting procedure as per Section 13.3 (a).
- Employees must successfully complete the training prior to bumping to the Assembly Technician job classification.

This procedure will be followed by order of seniority until all positions identified for layoff are filled or until all Plastic and Trim employees with more seniority than Assembly Technicians have been canvassed, whichever occurs first.

Sincerely,

Stephanie Doggett

LOU #28 Re: Return to Work

The Company and the Union agree that the safe and speedy return to work of employees who are unable to perform the full normal duties of their assigned job classification due to an occupational or non-occupational injury or illness is an important mutual goal. In addition, the parties recognize that the Company, the Union, and employees have a collective responsibility with respect to the duty to accommodate. The parties agree that every person has a right to equal treatment with respect to employment without discrimination, subject to bona fide occupational requirements and subject to the threshold of undue hardship, and/or threat of reprisal in accordance with The Human Rights Code. In order to achieve these goals, when an employee requests an accommodation and/or returns to work under the terms of Section 4.6 or Section 9.5(b), the Company will consider a modification of the duties of the affected employee's current position, exhaust other positions within the affected employee's job classification, and then after lateral or lower grade opportunities have been exhausted, and only when mutually agreed to by the Company and the Union, will consider a job classification carrying a higher labour grade.

- Provide the Company with required supporting documentation
- When required, provide up to date medical prior to current supporting documentation expiring

- Facilitate and support accommodation measures
- Ensure due process in accordance with the collective agreement and applicable legislation

- When requested by the employee, follow up with and support those who have been accommodated
- Allow flexibility in the administration of the collective agreement where the duty to accommodate creates a conflict with the terms of the agreement

- Attempt to accommodate an employee who requires an accommodation up to the point of undue hardship
- Obtain expert opinions or advice where the Company determines greater clarification is needed
- Keep documentation regarding the accommodation request consistent with its privacy obligations
- Limit requests for information to that reasonably required by the Company in attempting to accommodate an employee
- Provide written confirmation to an employee where the employee has satisfactorily established that they require an accommodation and the Company has determined that it would constitute undue hardship to accommodate the employee
- Provide the Union with a list of the names of employees on Short Term and Long Term Disability, as well as other Disability claims to which the Union is entitled, including the start date of their claim(s).
- Provide the Union with a list of employees on medical accommodations
- Update the Union as to when employees return from a claim and when their accommodations cease.
- Allow flexibility in the administration of the collective agreement where the duty to accommodate creates a conflict with the terms of the agreements

The Company and the Union agree that the joint Return to Work Committee shall meet on a bi-weekly basis to discuss return to work opportunities for employees off work due to a medical reason and to review employees being accommodated in a different classification who are approaching their 18-month re-assignment as per Section 6.1(b). The committee shall be comprised of three (3) Company representatives, the Union Health and Safety Chairperson and two (2) shop committee representatives.

Prior to an employee returning to work under the terms of Section 4.6 or Section 9.5 (b) and where the accommodation is in a position outside their current classification the employee is required to participate in a joint Return to Work Committee meeting regarding their status.

LOU #32 Re: Summer and Christmas Shutdown Periods

This will confirm the agreement between the parties that Summer and Christmas shutdown periods will be handled by the Company posting volunteer lists in each work centre where there is work available during the shutdown period by asking employees to commit by a set date, for the time during the shutdown that they are able to work. The Company will provide the volunteer lists to the Union prior to the shutdown.

The Company may establish minimum periods of time for which an employee must be available in order to volunteer to work during a shutdown period. From these volunteer lists employees will be chosen by work centre and seniority to fill the requirement for the shutdown period.

Probationary employees would fall within their seniority ranking on the volunteer list per work centre. If the volunteers from the work centre do not meet the requirement, it will be met by posting for volunteers in accordance with the established overtime flowcharts by seniority.

For the weekend at the start of the shutdown period, normal overtime canvassing will occur as per the provisions of the Overtime Letter of Understanding for weekends. Only employees scheduled to work during the shutdown period will be canvassed for overtime during the shutdown period, which will include the weekends at the end of the first and second weeks of the shutdown. Employees will not be charged for overtime opportunity unless they are scheduled to work in the plant at the time the canvassing occurs.

Work areas that are not scheduled to work will have a volunteer list of employees that are available to be called into their work centre by work centre seniority for emergency work. Management will not circumvent the use of the call-in lists with employees that are currently working during the shutdown period.

This letter will not apply in situations when there is off-site training for recalled employees.

APPENDIX A
OVERTIME

An employee who accepts an overtime shift and then wishes to cancel the shift must notify the Company at least eight (8) hours before the start of the overtime shift by calling the Company's call in line and selecting the cancellation option. If notification of weekend overtime is less than 8 hours from your regularly scheduled shift, there will be no penalty for missing the overtime opportunity. In the event that the overtime shift begins less than eight (8) hours after the employee's current shift ends, the employee will have until the end of their current shift to notify their manager or designate if they wish to cancel the overtime shift. An employee who properly cancels an overtime shift shall not be subject to any penalty as a result of such other than being charged the overtime hours for which the employee was scheduled to work.

Where an employee accepts an overtime shift and does not cancel the shift as indicated above, the overtime shift shall be a scheduled shift.

Notification of Absence from a Scheduled Overtime Shift

In the event that the employee is absent for the scheduled overtime shift, the employee must utilize the call-in line to notify the Company of their absence prior to the start of the scheduled overtime shift. If the call-in line is not functional, the employee shall contact Security. Deaf or hard-of-hearing employees shall call the Deaf Access Line (TDD) or contact their Manager via Blackberry or similar device. A failure to call-in will subject an employee to progressive disciplinary action, up to and including termination of employment.

Sincerely,

Stephanie Doggett
Human Resources Director

Re: Lead Hand/Team Lead Rate Protection

Any employee permanently assigned to a Lead Hand or Team Lead position on June 16, 2018 will receive pay rate premium protection as outlined in the attached *Lead Hand/Team Lead Pay Rate Protection Practice* while in assignment (see bottom of page). This rate protection will also extend to existing permanent Lead Hands or Team Leads who, in the future, are upgraded or downgraded directly to Team Lead or Lead Hand. This rate protection will remain in place through the life of the 2018-2023 Collective Bargaining Agreement.

This letter does not preclude the Company's right to remove any existing Lead Hand or Team Lead from their assignment. However, if an employee is removed from their Lead Hand/Team Lead assignment due to production requirements, their base rate will remain at the maximum for their classification for a one-year period following removal from the assignment. Thereafter, the employee's base rate will return to the appropriate value in their respective labour grade pay scale.

In the event that an employee is removed from their Lead Hand/Team Lead assignment due to performance concerns, the employee's base rate will return to the appropriate value in their respective labour grade pay scale. Should the employee then be returned to a Lead Hand or Team Lead position within one year following removal from the assignment, the Company will apply the pay rate premiums in the *Lead Hand/Team Lead Pay Rate Protection Practice*.

These pay rate premiums will not apply to employees who forfeit their Lead Hand or Team Lead positions.

The below *Lead Hand/Team Lead Pay Rate Protection Practice* will not apply to any employee who is not currently assigned to a permanent Lead Hand or Team Lead position on June 16, 2018.

Lead Hand/Team Lead Pay Rate Protection Practice

An employee assigned in writing by the Company as a Lead Hand shall be paid a premium equal to either one dollar (\$1.00) above their own current base rate or one dollar (\$1.00) above the range maximum for the highest job classification led in their assigned work centre, whichever is the greater. An employee assigned in writing by the Company as a Team Lead shall be paid a premium equal to two dollars (\$2.00) per hour above their own current base rate or two dollars (\$2.00) per hour above the range maximum for the highest job classification led in their assigned area, whichever is the greater.

Sincerely,

Stephanie Doggett
Director of Human Resources
